

ABSTRACT

5

The invention provides a method for labeling a glass, plastic or metal container or surface with a polymeric label by means of a water based adhesive composition by the following steps:

10 (a) selecting a polymeric label having a density of less than 0.9;

(b) applying a water based adhesive to said polymeric label to form a fastenable polymeric label;

(c) fastening said fastenable polymeric label to a

15 glass, plastic or metal container or surface; and

(d) allowing said polymeric label to dry on said glass, plastic or metal surface or container.
